ToolPak Meter Hanging Kit

Now you can hang your meter almost anywhere with the new Fluke ToolPak accessories kit. ToolPak includes a universal hanger, a magnet, a 17-inch (23 cm) "hook-and-loop" hanger strap.

The universal hanger is designed to fit into the special module on the back of the meter. The universal hanger allows you to hang your meter on a nail, hook or other object. You can add a piece of rope, flexible wire or cable to hang the meter in almost any position.

The 17-inch (23 cm) hook-and-loop strap is used with Fluke's universal hanger to wrap around and connect to a pipe, beam or any other convenient support structure.

And finally, the strong magnet accessory will attach to an electrical panel, a metal doorjamb or any other ferrous-type metal.

Fluke. Keeping your world up and running.
