

Dear *Fluke News* subscriber,

Please accept the enclosed custom Fluke test lead wrap with our thanks.

These wraps are normally only available as part of larger kits, but we thought *Fluke News* readers would have plenty of individual uses for them.

If you like the wrap, let us know—email fluke-info@fluke.com and send us your feedback.

Thank you for taking the time to read *Fluke News*. We try hard to provide our test tool users with high quality information they can use.

Sincerely,

Fluke News Editors

not included*

Instructions on back

Using the Test Lead Wrap

Tip: This test lead wrap has Velcro™ on both ends, so that one end can stay attached to your test leads and never get lost.

1. Hook (attach) the square end of the strap to one end of the leads.

2. Loop (wrap) the strap around the rolled up leads to secure the bundle.
