Fluke i6000s Flex
AC Current Probe

Technical Data

The i6000s Flex is an ac current probe utilizing the Rogowski principle. It can be used to measure currents up to 6000 A when used in conjunction with oscilloscopes, recorders or data loggers. The flexible and lightweight measuring head allows quick and easy installation in hard to reach areas.

The i6000s Flex is available in 2 models, i6000s Flex-24 with a 24 inch measuring head and i6000s Flex-36 with a 36 inch measuring head to allow use on larger diameter conductors.
