This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio or television technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the users authority to operate the equipment. To comply with the FCC RF exposure compliance requirements, this device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

Avis Canadien

Cet appareil est conforme a la norme canadienne NMB-003 classe B et CNR-210 de l’industrie Canada.

Ce dispositif numerique de classe B respecte toutes les exigences du Reglement canadien materiel brouilleur. Fonctionnement sans fil est soumis a deux conditions. La premiere est que l’appareil sans fil ne pas provoquer des interferences. La seconde est que le dispositif sans fil doit accepter toute interference, y compris les interferences qui peuvent causer un mauvais fonctionnement de l’appareil. Pour se conformer aux exigences de conforme RF canadienne l’exposition, cet appareil et son antenne ne doivent pas etre co-localises ou fonctionnant en conjonction avec une autre antenne ou transmettre.
