

How to connect the 279 FC Thermal Multimeter to a smartphone

For both iOS and Android phones

Turn the meter on using the  power button.

1. Press the  radio button. The FC icon will show up on the top of the meter's screen.
2. On your phone, make sure the phone's Bluetooth setting is ON.
3. Open the Fluke Connect®  app.
4. The center  icon should be highlighted as the smartphone searches for Fluke Connect devices. If not, press the  icon.
5. Locate the yellow bar showing "279FC". Press this bar.

6. The  button on the meter should begin blinking and the phone should now be showing the measurement from the meter.
