a3000 FC
Wireless AC Clamp

Safety Information

Go to www.fluke.com to register your Product and find more information.

A Warning identifies conditions and procedures that are dangerous to the user.

⚠️⚠️ Warning
To prevent possible electrical shock, fire, or personal injury:
• Read all safety information before you use the Product.
• Do not alter the Product and use only as specified, or the protection supplied by the Product can be compromised.
• Limit operation to the specified measurement category, voltage, or amperage ratings.
• Do not touch voltages >30 V ac rms, 42 V ac peak, or 60 V dc.
• Do not use the Product around explosive gas, vapor, or in damp or wet environments.
• Do not use the Product if it is damaged.
• Disable the Product if it is damaged.
• Do not use the Product if it operates incorrectly.
• The battery door must be closed and locked before you operate the Product.
• Replace the batteries when the low battery indicator shows to prevent incorrect measurements.

3-Year Limited Warranty.
See the Users Manual for the full warranty.
• Have an approved technician repair the Product.
• Use only specified replacement parts.
• Do not work alone.
• Comply with local and national safety codes. Use personal protective equipment (approved rubber gloves, face protection, and flame-resistant clothes) to prevent shock and arc blast injury where hazardous live conductors are exposed.
• Before each use, examine the Product. Look for cracks or missing pieces of the clamp housing or output cable insulation. Also look for loose or weakened components. Carefully examine the insulation around the jaws.
• Do not operate the Product with covers removed or the case open. Hazardous voltage exposure is possible.
• Remove the input signals before you clean the Product.

For safe operation and maintenance of the Product:
• Remove batteries to prevent battery leakage and damage to the Product if it is not used for an extended period.
• Repair the Product before use if the battery leaks.
• Be sure that the battery polarity is correct to prevent battery leakage.
• Batteries contain hazardous chemicals that can cause burns or explode. If exposure to chemicals occurs, clean with water and get medical aid.

Safety Specifications
Range ........................................ 400.0 A ac
Battery ..................................... Two AA, IEC LR6
Temperature
Operating.............................. -10 °C to +50 °C
Storage............................... -40 °C to +60 °C
Operating Relative
Humidity ............................... 90 % at 35 °C
.......................................... 75 % at 40 °C
.......................................... 45 % at 50 °C
Altitude
Operating............................. 2000 m
Storage................................. 12 000 m
Ingress Protection ........... IEC 60529: IP30 (non-operating)
Safety
General........................... IEC 61010-1: Pollution Degree 2
Measurement ..................... IEC 61010-2-032 CAT IV 300 V /
C AT III 600 V

Electromagnetic Compatibility (EMC)
International.................... IEC 61326-1: Portable Electromagnetic
Environment
CISPR 11: Group 1, Class A
Group 1: Equipment has intentionally generated and/or uses
conductively-coupled radio frequency energy that is necessary
for the internal function of the equipment itself.
Class A: Equipment is suitable for use in all establishments
other than domestic and those directly connected to a low-
voltage power supply network that supplies buildings used for
domestic purposes. There may be potential difficulties in
ensuring electromagnetic compatibility in other environments
due to conducted and radiated disturbances.
Caution: This equipment is not intended for use in residential
environments and may not provide adequate protection to radio
reception in such environments.
Emissions that exceed the levels required by CISPR 11 can
occur when the equipment is connected to a test object.

Korea (KCC)................... Class A Equipment (Industrial
Broadcasting & Communication
Equipment)
Class A: Equipment meets requirements for industrial
electromagnetic wave equipment and the seller or user should
take notice of it. This equipment is intended for use in business
environments and not to be used in homes.
USA (FCC) ..................... 47 CFR 15 subpart B. This product is
considered an exempt device per clause
15.103.

Wireless Radio
Frequency Range............... 2412 MHz to 2462 MHz
Output Power ..................<10 mW
