

Fluke 1735 V1.10 Release notes

- Show +/- Energy in POM measure, show totalized Energy also.
- Bug fix for 6kA iFlex set, Powerlog (previously showed only 50% amps readings).
- Bug fix when rReturning from Setup with changed amps range into hold mode showed wrong results. When changing to run mode, changes were propagated and showed correct results.
- Bug fix for wrong message shown when turning the rotary switch in record:hold mode.
