This supplement contains information necessary to ensure the accuracy of the above manual.
**Change #1, 498**

On the second page, replace the **Safety Specifications** with:

**Safety Specifications**

**Maximum Voltage between Terminals and Earth Ground:** 30 V

**Range** ........................................... -200 °C to 1372 °C (with K type thermocouple)

**Battery** ................................. Two AA, NEDA 15 A, IEC LR6

**Temperature**

- **Operating Temperature** ...... -10 °C to +50 °C
- **Storage Temperature** .......... -40 °C to +60 °C

**Operating Relative Humidity**

- 90 % at 35 °C
- 75 % at 40 °C
- 45 % at 50 °C

**Altitude**

- **Operating** ........................... 2000 m
- **Storage** ............................... 12 000 m

**Ingress Protection** ............... IEC 60529: IP42 (non-operating)

**Safety**

- IEC 61010-1 ............................. Pollution Degree 2

**Electromagnetic Compatibility (EMC)**

- International ........................... IEC 61326-1: Portable
  - Electromagnetic Environment;
  - IEC 61326-2-1

**CISPR 11: Group 1, Class A**

*Group 1: Equipment has intentionally generated and/or uses conductively-coupled radio frequency energy that is necessary for the internal function of the equipment itself.*

*Class A: Equipment is suitable for use in all establishments other than domestic and those directly connected to a low-voltage power supply network that supplies buildings used for domestic purposes. There may be potential difficulties in ensuring electromagnetic compatibility in other environments due to conducted and radiated disturbances.*

*Caution: This equipment is not intended for use in residential environments and may not provide adequate protection to radio reception in such environments.*

*Emissions that exceed the levels required by CISPR 11 can occur when the equipment is connected to a test object.*
Korea (KCC) ......................... Class A Equipment (Industrial Broadcasting & Communication Equipment)

Class A: Equipment meets requirements for industrial electromagnetic wave equipment and the seller or user should take notice of it. This equipment is intended for use in business environments and not to be used in homes.

USA (FCC) ......................... 47 CFR 15 subpart B. This product is considered an exempt device per clause 15.103.
