Safety Information

To register your product, visit www.fluke.com.
To view, print, or download the latest manual or manual supplement, visit http://us.fluke.com/usen/support/manuals.

A Warning identifies hazardous conditions and procedures that are dangerous to the user.

⚠️⚠️ Warning

To prevent possible electrical shock, fire, or personal injury and for safe operation of the Product:

- Read all safety information before you use the Product.
- Carefully read all instructions.
- Do not alter the Product and use only as specified, or the protection supplied by the Product can be compromised.
- Do not use the Product if it is altered or damaged.
- Do not put battery cells and battery packs near heat or fire. Do not put in sunlight.
- Do not disassemble or crush battery cells and battery packs.

© 2019 Fluke Corporation. All rights reserved. Specifications are subject to change without notice. All product names are trademarks of their respective companies.
• Use only Fluke approved power adapters to charge the battery.

• Keep cells and battery packs clean and dry. Clean dirty connectors with a dry, clean cloth.

• Batteries contain hazardous chemicals that can cause burns or explode. If exposure to chemicals occurs, clean with water and get medical aid.

• Disconnect the battery charger and move the Product or battery to a cool, non-flammable location if the rechargeable battery becomes hot (>50 °C) during the charge period.

• Replace the rechargeable battery after 5 years of moderate use or 2 years of heavy use. Moderate use is defined as recharged twice a week. Heavy use is defined as discharged to cutoff and recharged daily.

• Do not short the battery terminals together.

• Do not keep cells or batteries in a container where the terminals can be shorted.

• Do not look into the laser. Do not point the laser directly at persons or animals or indirectly off reflective surfaces.

• Do not look directly into the laser with optical tools (for example, binoculars, telescopes, microscopes). Optical tools can focus the laser and be dangerous to the eye.

• Do not open the Product. The laser beam is dangerous to eyes. Have the Product repaired only through an approved technical site.

• Do not use laser viewing glasses as laser protection glasses. Laser viewing glasses are used only for better visibility of the laser in bright light.

• See emissivity information for actual temperatures. Reflective objects result in lower than actual temperature measurements. These objects can pose a burn hazard.

• Do not put metal objects into connectors.

• Use only specified replacement parts.

• Have an approved technician repair the Product.

• Do not use the Product for medical reasons. The Product is intended for equipment evaluation only and should never be used in diagnostics, treatment, or any other capacity where the Product would come in contact with a patient.

Specifications

Temperature
Operating...................................... -10 °C to 50 °C (14 °F to 122 °F)
Storage ......................................... -20 °C to 50 °C (-4 °F to 122 °F) without batteries

Relative Humidity............................ 10 % to 95 % non-condensing

Altitude
Operating...................................... 2000 m
Storage ......................................... 12 000 m

Power
Batteries ....................................... Lithium-ion rechargeable
Battery Charge Temperature ...................... 0 °C to 40 °C (32 °F to 104 °F)
Battery Charge ............................. Ti SBC3B Two Bay Battery Charger or image charging. AC universal adapters included.

AC Power Adapter........................ AC operation with included power supply, universal adapters included

Size (H x W x L)
TiX5XX Expert Series........................~(27.7 cm x 12.2 cm x 16.7 cm)
~(10.9 in x 6.3 in x 6.6 in)
Professional Series and Gas Leak Detectors ....................~(26.7 cm x 10.1 cm x 14.5 cm)
~(10.5 in x 4.0 in x 5.7 in)
Performance Series ........................~(26.7 cm x 10.1 cm x 14.5 cm)
~(10.5 in x 4.0 in x 5.7 in)

Weight (includes batteries)..................≤2.27 kg (5 lb)

Ingress Protection Rating ..............IEC 60529: IP54

Safety ...........................................IEC 61010-1: Pollution Degree 2

This product complies with the WEEE Directive marking requirements. The affixed label indicates that you must not discard this electrical/electronic product in domestic household waste. Product Category: With reference to the equipment types in the WEEE Directive Annex I, this product is classed as category 9 "Monitoring and Control Instrumentation" product. Do not dispose of this product as unsorted municipal waste.

Indicates a Class 2 laser. DO NOT STARE INTO BEAM The following text may appear with the symbol on the product label: "IEC/EN 60825-1:2014. Complies with 21 CFR 1040.10 and 1040.11 except for deviations pursuant to Laser Notice 50, dated June 24, 2007." In addition, the following pattern on the label will indicate wavelength and optical power: λ = xxxnm, x.xxmW.
Wireless Radio
Frequency..................................... 2412 MHz to 2462 MHz
Output Power................................ <100 mW

Laser............................................. IEC 60825-1:2014, Class 2
Wavelength................................... 650 nm
Max Output Power......................... <1 mW

Electromagnetic Compatibility (EMC)

International............................... IEC 61326-1: Portable Electromagnetic Environment; IEC 61326-2-2
                                      CISPR 11: Group 1, Class A

Group 1: Equipment has intentionally generated and/or uses conductively-coupled radio frequency energy that is necessary for the internal function of the equipment itself.

Class A: Equipment is suitable for use in all establishments other than domestic and those directly connected to a low-voltage power supply network that supplies buildings used for domestic purposes. There may be potential difficulties in ensuring electromagnetic compatibility in other environments due to conducted and radiated disturbances.

Caution: This equipment is not intended for use in residential environments and may not provide adequate protection to radio reception in such environments.

Korea (KCC)................................. Class A Equipment (Industrial Broadcasting & Communication Equipment)

Class A: Equipment meets requirements for industrial electromagnetic wave equipment and the seller or user should take notice of it. This equipment is intended for use in business environments and not to be used in homes.

USA (FCC)................................. 47 CFR 15 Subpart C Sections 15.207, 15.209, 15.249.
